#### ***Nonstatutory Double-Patenting Rejection***

Claims 1-53 stand rejected under the judicially created doctrine of nonstatutory double-patenting. Applicants submit the attached terminal disclaimer, and respectfully request the rejection be withdrawn.

#### ***Comments on Reasons for Allowance***

The Office Action provides reasons for allowance of claims 1-53. Insofar as the Office Action invites the Applicant to provide comments on the reasons for allowance, Applicant responds as follows. The examiner's statement of reasons for allowance cites specific features or combinations of features of various claims as supporting their respective allowability. Applicant maintains that each independent claim is allowable based on one or more unique features recited therein, and do not believe the novel aspects of the claims to be so limited to the specific feature or combination of features as indicated in the examiner's statement of reasons for allowance.
